

SHRI SHIVAJI SCIENCE & ARTS COLLEGE CHIKHLI.

B. Sc. II (Semester IV) - MICROBIOLOGY

FIELD PROJECT Summer – 2026

Sr. No.	Name of the Student	Field Project Titles
1	Anushka Sanjay Band	Isolation & characteristics of Lactic acid bacteria from Curd.
2	Ashvini Vishnu Ingle	Antimicrobial Activity of Tulsi.
3	Dipti Vinod Muley	Microbial Analysis of Drinking water quality by MPN method from Chikhli.
4	Gazala Parvin Quazi Naim	Isolation & Identification of Microorganism present on Vegetables.
5	Patel Naziya Shaikh Shakil	Isolation & characteristics of microorganism present on hand.
6	Prajakta Rameshwar Jadhao	Isolation & characteristics of microorganism present on hand.
7	Prajwal Sachin Shinde	Assessment of microbial diversity and functional potential in waste disposal environment.
8	Priyanka Sunil Kadam	Isolation & Identification of Microorganism present on Vegetables.
9	Purva Chandrakant Gende	Isolation & Identification of Microorganism present on Vegetables.
10	Purva Sachin Padghan	Isolation & Identification of bacteria from fingernails.
11	Renuka Rajesh Jadhao	Isolation & Identification of bacteria from fingernails.
12	Sanjana Gajanan Gawai	Isolation & characteristics of Lactic acid bacteria from Curd.
13	Sham Narayan Hede	Assessment of microbial diversity and functional potential in waste disposal environment.
14	Sujata Damodhar Deshmukh	Microbial Analysis of Drinking water.
15	Tanuja Manoj Veer	Antimicrobial Activity of Tulsi.
