Action Taken Report of Eco-Friendly Rakhi Preparation Workshop

ORGANIZED BY DEPARTMENT OF
BOTANY

Date

14th

August

2024

To celebrate the spirit of Raksha Bandhan, Department of Botany, and Department Home Economics collaboratively organized an Eco Friendly Rakhi Preparation Workshop in the college campus on 14th August 2024 under the supervision and guidance of Dr. M. T. Nikam Principal of the College and Prof. Dr. Vanita U. Pochhi HOD, Botany & IQAC coordinator. Seventy nine students participated in this workshop. Mr. M. D. Kolte worked as coordinator; Mr. D. L. Gavande worked as convener of this workshop they also guided the students for making eco friendly Rakhi. All participants tied Rakhi on the tree and committed them to protect trees.

The objective of this workshop was to increase the awareness among the students and teaching faculty to protect and safeguard the environment and avoid using non-biodegradable resources. The theme of this workshop was to make Eco-Friendly Rakhi using biodegradable materials such as cotton, leaves, paper, Seeds of plants etc. The event witnessed the full support and participation from students, faculty members, and nonteaching staff demonstrating their commitment towards environmental sustainability.

**Plantable Eco-Friendly Rakhi Preparation
Competition**

A sister ties a Rakhi on her brother's wrist with a prayer for his long life, prosperity and happiness. The brother in return, gives her a token gift and a promise to protect her. Every year, Raksha Bandhan is celebrated on the full moon of the Hindu month 'Shravana'. This year, it will be celebrated on the 19th of August. A rakhi is a symbol of security and solidarity because it carries a special feeling. Every year 600 million people around the world celebrate Rakshabandhan, but many companies use non-biodegradable materials to make the Rakhis which are harmful to the environment.

Those plastic beads pollute the rivers and soil. Birds and fish feed on it and it leads to death. Some are burnt and thrown out. But did you know the ashes are made from plastic, and chemical dyes, and therefore, they harm the environment? But like every other problem today, it has an environmentally friendly solution too. Environmentally conscious citizens across India have started making a handful of eco friendly rakhi, which not only protects nature, but can also be grown in plants! You can be a part of another green revolution, this Raksha Bandhan, by looking for the answer to the question of how to make plantable Rakhi. This Raksha Bandhan makes a green alternative and sows the seeds of love for an environmentally friendly plant rakhi, unlike traditional ones made of non-biodegradable materials such as plastics. Go green and opt for eco-friendly rakhi making.

The Department of Botany will organize the plantable Eco-friendly Rakhi preparation Competition on the occasion of Rakshabandhan festival. In this programme I am working as a examiner.

The planing, management, and organization is well and I wish to the Botany department to organize this programme in next year.

Thank you

Dr. R. B. Gude
